

Nurturing Young Leaders Talk Series 2019

“Top 10 global trends in real estate today that will change the way we conduct business”

Staying on top of real estate market trends does not only allow you to keep updated in regards to the real estate market but also increases your chances of making successful real estate decisions and real estate investments.

Following everything related to real estate market trends also enables you to better understand the changes within the market, buyers' and sellers' behaviours, when to invest or purchase or sell properties and what are the most suitable real estate investment strategies for you and your budget.

This discussion will give you insight on methods to use in order to stay on top of real estate market trends.

Philip Yee was the Global Chief Investment Officer (CIO) for CFLD International, covering over 10 countries outside of China. Founded in 1998, CFLD is recognized as a world leader in the construction, development and operation of new industries cities (NIC), encompassing the full value chain of investment and operations, including primary land development, infrastructure development and construction, industry development services, property management, comprehensive public services and real estate development.

To date, CFLD has more than 80 project regions worldwide, attracted 1900 enterprises, contributed USD27.6 billion in GDP, and brought in cumulative investments of USD76.5 billion.

Mr. Yee is an influential real estate executive with over 3 decades of proven success leading portfolio management, fund raising, acquisition, and new development of new buildings around the world.

Some of the firms where he held senior roles include BlackRock, Anbang Insurance, The Ohio Teachers Retirement System of Ohio, CFLD International, and others with the task of transforming and creating value for investors utilizing various quantitative and qualitative investment strategies to maximize gains and maintain appropriate risk tolerance levels.

Philip Yee
Ex-Global Chief
Investment Officer (CIO)
for CFLD International
